

Under Construction

Building Web Sites as a Project-based Learning Activity for ABE/ESOL Classes: Tips for Teachers

Published by World Education

Looking for ways to prepare adults to be more active users of technology?

When paired with instructional strategies like project-based learning, technology may support activities that encourage more intellectually complex work and more relevant, real-life problem solving.

Under Construction: Building Web Sites as a Project-based Learning Activity for ABE/ESOL Classes, is a short guidebook designed to provide adult literacy and ESOL staff developers and teachers with some simple, user-friendly advice on building Web sites as a project-based learning activity. Based on what we have learned over the years while training teachers and their students to build their own sites, each chapter discusses the major steps in the process, from planning and building a site to reviewing and testing it.

Ordering Information

Under Construction is available for \$5 per copy

To order, please send a P.O./check/money order in U.S. currency (payable to World Education), along with the form below, to:

Jeff Carter, World Education, 44 Farnsworth Street, Boston, MA 02210

Shipping/Handling:

1 book \$2.00 2-5 books \$3.00 6-10 books \$5.00 11-20 books \$8.00
